Dear Mom and Dad, 3-27
[1973; 4-10 letter mentions Tsu again. 4-5 letter mentions Haverford meet.]

Hi, Monika and Bill. Joan, too.

Love,

Thanks for the forwarded mail. I had sent for a Medical Admissions requirements book. The mail was an acknowledgement of receipt. The newer edition won't be ready until May 1 though.

Mike

I'm happy to hear that Tsu is still doing okay.

No (outdoor) track meets yet. The first one is next week Apr. 4 against Haverford. The girl's still out and trying pretty hard. A two miler (sophomore) who was out last year dropped out this year because of a heart condition (he says its a murmur).

I'm glad Karin did so well. Sorry I missed it. (the play of course). I got a 90% ("as it stands") on the Physiological psychology Midterm ("quiz") - 135 pts out of 150. It was the highest in the class. It was a relatively easy test but I didn't know everything.

I'm studying for a chemistry test (to take tomorrow). It will be almost all on introductory organic. I had fun making models of organic compounds in lab today (only took about half the lab period too).

I got an 80% on my unknown from last week in chemistry lab. I thought I had one more ion than I actually had. (We had to test for a total of 10 ions - I found "5" when there were only 4.

Hey Dad, have you been able to find time to finish the PCS and fill out income tax forms with all the other things you have to do. I'm not rushing you (far from it) I just feel for you. Take it easy everybody.
